Select / deselect all

- Academic Search Complete**
Academic Search Complete is the world's most valuable and comprehensive scholarly, multi-disciplinary full-text database, with more than 8,500 full-text periodicals, including more than 7,300 peer-reviewed journals. In addition to full text, this database offers indexing and abstracts for more than 12,500 journals and a total of more than 13,200 publications including monographs, reports, conference proceedings, etc. The database features PDF content going back as far as 1887, with the majority of full text titles in native (searchable) PDF format. Searchable cited references are provided for more than 1,400 journals.
[Title List](#) [More Information](#)
- ERIC**
ERIC, the Education Resource Information Center, contains more than 1.3 million records and links to more than 323,000 full-text documents dating back to 1966.
[More Information](#)
- Library, Information Science & Technology Abstracts**
Library, Information Science & Technology Abstracts (LISTA) indexes more than 560 core journals, nearly 50 priority journals, and nearly 125 selective journals; plus books, research reports and proceedings. Subject coverage includes librarianship, classification, cataloging, bibliometrics, online information retrieval, information management and more. Coverage in the database extends back as far as the mid-1960s.
[Title List](#) [More Information](#)
- MEDLINE**
MEDLINE provides authoritative medical information on medicine, nursing, dentistry, veterinary medicine, the health care system, pre-clinical sciences, and much more. Created by the National Library of Medicine, *MEDLINE* uses MeSH (Medical Subject Headings) indexing with tree, tree hierarchy, subheadings and explosion capabilities to search citations from over 5,400 current biomedical journals.
[More Information](#)
- GreenFILE**
GreenFILE offers well-researched information covering all aspects of human impact to the environment. Its collection of scholarly, government and general-interest titles includes content on global warming, green building, pollution, sustainable agriculture, renewable energy, recycling, and more. The database provides indexing and abstracts for more than 384,000 records, as well as Open Access full text for more than 4,700 records.

Welcome to the EBSCOhost Integrated Search (EHIS) tutorial, designed to provide users with an overview of EBSCO's Integrated Searching interface. In this tutorial, we will look at performing a basic keyword search and also review the unique features available within EHIS.

Searching: **General Resources**, **Show all** | Choose Databases by Subject »

Global Warming ?

Search Options | Basic Search | Advanced Search | Search History

Search Options		Reset	
Search modes ?	<input type="radio"/> Boolean/Phrase <input checked="" type="radio"/> Find all my search terms <input type="radio"/> Find any of my search terms <input type="radio"/> SmartText Searching Hint	Apply related words	<input type="checkbox"/>
		Also search within the full text of the articles	<input type="checkbox"/>
Limit your results			
Full Text	<input checked="" type="checkbox"/>	Scholarly (Peer Reviewed) Journals	<input type="checkbox"/>
Published Date from	<input type="text"/>		

We'll begin by conducting a search for *Global Warming* from the Basic Search screen. To reveal all of the available search modes, limiters, and expanders, click the **Search Options** link. If you would like to view the list of databases being searched, click the **Show all** link above the **Find** field. Select your desired limiters and click **Search**.

The screenshot shows the EBSCO Integrated Search interface. At the top, there is a navigation bar with links for 'New Search', 'Subject Terms', 'Publications', 'Images', and 'More'. On the right side of the navigation bar are links for 'Sign In', 'Folder', 'Preferences', 'Languages', 'Demo Support', and 'Help'. Below the navigation bar, the search query 'Global Warming' is entered in a search box. To the right of the search box are buttons for 'Search', 'Clear', and a help icon. The search results are displayed in a central area, with a 'Library Catalog' section highlighted in blue. A red box highlights the 'Show Available Results Now' button. To the right of the search results is a 'Legend' section with the following items:

- = retrieving results
- = results are available
- = provider not returning a response
- = hover for information

Below the legend is a link: [Learn more about integrated search](#). On the right side of the interface, there is a sidebar titled 'Integrated Search' with a 'Details' link. The sidebar contains a list of databases with checkboxes and icons:

- Multi-disciplinary, full-text scholarly database for students, faculty Academic Search Premier
- Full Text Current Events Newspaper and Video Database NewsBank: Access World News
- Multidisciplinary Biographies Database Biography Resource Center
- Encyclopedia Britannica Online
- Full Text, Peer Reviewed, Scientific and Scholarly Journals Directory of Open Access Journals
- Full Text Scholarly Articles (Peer Reviewed)

As your search results begin to load, the Integrated Search progress screen will display. After results have been returned for all Tier 1 databases, the result list will be displayed. Tier 1, or key databases, are determined and configured by your administrator, and results from those databases will display in your result list. You can view available results immediately by clicking the **Show Available Results Now** button.

When results are available for all Tier 1 databases, the result list is displayed. If Integrated Search is still searching any additional databases, the “retrieving results” graphic will display in the Integrated Search panel. If available, select an article to read by clicking on the full text link. You can view an article’s summary by clicking the article title, or view a brief version of the summary by holding your mouse over the preview icon.

Update Show All

The Integrated Search panel displays the databases you are searching in the current session. Databases marked with a check after your search are Tier 1 databases, while those not checked are all other databases. If a database contains a blue hyperlink, results are available for your query. If a database is grayed out, no results for your query were available. To view more information about a resource, hold your pointer over the Source Description icon.

When a search is performed, the result list will first display results in Tier 1 databases only. If you would like to view results in other databases, click the specific hyperlinked description to view items only from that resource. Or mark the check boxes for multiple resources and click the **Update** button found at the bottom of the Integrated Search panel.

EBSCOhost Research Databases

EBSCOhost is a powerful online reference system accessible via the Internet. It offers a variety of proprietary full text databases and popular databases from leading information providers.

The comprehensive databases range from general reference collections to specially designed, subject-specific databases for public, academic, medical, corporate and school libraries.

EBSCO Support Site

EBSCO's [Support Site](#) is available 24 hours a day, 7 days a week. Our FAQ database, tutorials, and user guides can provide answers to your technical questions.

EBSCO Customer Support Representatives are also available by [phone](#) and [e-mail](#) 24 hours a day, Monday through Friday, as well as Saturday and Sunday from 9 a.m. to 5 p.m. (US EST).

How to Use Help

- When the Help icon appears, you can click the icon and help for the screen you are on will display.
- To obtain help for the database(s) you are searching, click the Help icon to the right of the Find field and click on the Database name at the bottom of the left-hand side of the Help window. Database help is also available from the Choose Databases window.
- To view the entire Help System, click the [Help](#) link at the top right-hand corner of the screen.

Note: The recommended screen resolution for EBSCOhost is 1024 x 768.

[Back](#)

At any time during your session, you can click on the **Help** link to view the complete online Help system.
